**Williams Scotsman Awarded Statewide Association of Educational
Purchasing Agencies Contracts**
Strengthens Service to K-12 Education Markets and Local Government

Baltimore, MD – September 28, 2006 - Williams Scotsman, Inc. (NASDAQ: WLSC) is pleased to announce the award of statewide contracts with members of The Association of Educational Purchasing Agencies (AEPA). Assisting member state purchasing cooperative groups and agencies in the procurement of modular space for more than four years, Williams Scotsman and AEPA provide a one-stop shopping experience for school districts and local governments nationwide. Under this program, contracts have been awarded to Williams Scotsman by participating members in 17 states, including Washington, Colorado, Indiana, Pennsylvania, Oregon, and Kansas. Williams Scotsman's contract incorporates both lease and sale transactions of mobile and modular space, from portable classrooms and storage containers to custom permanent modular buildings and site work. According to McGraw-Hill Construction, many U.S. states project increases in K-12 student enrollment over the next ten years. A survey conducted by the National Institute of Governmental Purchasing reported 83 percent of public procurement officials use cooperative agreements, with 48 percent citing time and cost savings as the two key benefits of incorporating pre-negotiated contracts into the buying process.

Neshaminy School District in Langhorne, Pennsylvania, recently began a multi-million dollar renovation project for Neshaminy High School utilizing the AEPA cooperative purchasing contract. Since reconstruction work will take place while school is in session, the district had to find temporary facilities for students and staff to minimize potential disruption to daily learning activities and other school programs. Within three months, Williams Scotsman delivered 20 modular components, totaling over 14,000 square feet of classroom space. Students were able to return to school this fall in the new facility and are expected to occupy it while renovations are completed over the next few years.

“Calling Williams Scotsman was an easy choice for us. Their modular building contract with the AEPA made procuring our classroom buildings simple and convenient. We were able to leverage statewide due diligence while saving the school valuable time and money. Williams Scotsman delivered on time, completed a smooth installation, and promptly responded to our needs. The district is pleased with the

quality of service and also the buildings themselves,” commented Paul Minotti, the Director of Facilities and Engineering for the Neshaminy School District.

Joe Donegan, Executive Vice President of Field Operations for Williams Scotsman, affirms the company’s leadership in providing space solutions for the education market. “Williams Scotsman is committed to serving the education market with high-quality relocatable classrooms and permanent structures. The advantages of these AEPA agreements, combined with our product knowledge and customer service, provide schools with the tools to promote improved learning outcomes for students and to help districts meet the challenges of managing population volatility, legislative mandates, and accountability standards.”

About Williams Scotsman International, Inc.

Williams Scotsman International, Inc., headquartered in Baltimore, Maryland, is a leading provider of mobile and modular space solutions for multiple industry sectors, including the Construction, Education, Commercial, Healthcare and Government markets. The company serves over 25,000 customers, operating a fleet of over 113,000 modular space and storage units that are leased through a network of 100 locations throughout North America and Europe.
