

In addition to your classroom solution, we can provide additional products and services that complete your space- creating a more productive, comfortable, and safe work environment.

When your school system needs additional space as soon as possible, our portable classrooms are an ideal solution. Our 68' x 56' portable classroom provides 3,584 sq. ft. of educational space, is made with durable, high quality materials that meet national and state building, electrical, mechanical and plumbing codes and is supported by the best customer service in the industry. Standard and customized floorplans are available to meet your specific educational purpose and the unique space challenges you face right now. We also offer a variety of additional products and packages to ensure your portable classroom is ready to learn from day one.
